

ARE YOU READY FOR A CHALLENGE?

We are looking for a Head of Systematic Equity

ABOUT US

We are not like other asset managers. Not only are we unique in Stockholm with our quantitative and systematic investment management approach, but we are also at the forefront of the industry globally. Innovation has been part of our DNA since we started in 1999. At Lynx, we have managed to create a workplace where academic methods and a relentless focus on results are nourished by a friendly, collegial culture. The wellbeing of our employees is very important to us as they are the ones who make us successful. Lynx actively strives towards being an inclusive workplace and we see diversity as a prerequisite for future success.

ABOUT THE SEARCH

Lynx is looking for a Head of Systematic Equity to manage our new long/short cash equity venture, with our sight set on launching a systematic equity hedge fund in the coming years. The Head of Systematic Equity will be responsible for recruiting, leading and inspiring a team of top tier model developers and for the systematic investment strategies that are developed.

WHO WE LOOK FOR

The position requires extensive experience in asset management in general and model-based approaches, specifically. It is desirable that the candidate has a clear view of how to structure and manage a team to operationally handle a systematic long/short equity fund. This senior position requires a minimum of 10 years of combined experience in the financial industry, with at least three years in one or more of the following areas:

- Equity asset management (long/short)
- Systematic equity management

- Input data collection and handling linked to systematic equity management
- Operational issues and solutions linked to equity management

This a multi-faceted role where strong leadership, project management skills, self-motivation, and a structured way of working are critically important. A well-established network in the quantitative equity industry in Sweden and abroad is preferable, as is a MSc or equivalent degree in finance and/or engineering/quantitative methods.
